Operation Humidity	Within 95% RH
Power supply	DC12V(+/-15%)
Dimensions	13.58"(L) X 5.59"(W) X 4.25"(H)
Weight	3.83 lbs

The IR660 is a Long Range Infrared Security Camera with a 5-50mm Telephoto Lens. The IR 660 can illuminate an area as far as 150 feet. Many of the functions of the camera can be tailored to fit your situation; such as bright light masking, back-light compensation and many other options, via the on-screen menu. The IR 660 can also be used effectively as a License Plate Capture Camera and many of our customers are using it for that purpose.
