

# RUGGED CAMS

## Stronghold

### Multi-Purpose White Light Mobile Stainless Steel Camera

This one-of-a-kind White Light illuminated camera can be used to illuminate Engine Rooms, inside of vessels or tanks, or any dark area that you need to see from time to time. Plus – it is controlled via a Potentiometer that can turn on the lights and vary the intensity from totally off all the way up to “blinding bright”. The camera comes with a connection for the potentiometer at the camera, or you can use the included 65' waterproof cord (the potentiometer is the only part that is not waterproof) to run the switch to the cab, to the bridge or to a central station. In fact, you can add up to 3 extension cables for a total of about 200'.

Image Sensor	1/3" Sony Super HAD II Color CCD 960H
Effective Pixels	976(H) x 494(V)
Scanning Frequency	15.734 KHz (H) 59.94Hz (V)
Horizontal Resolution	700TVL
Scanning System	2:1 Interlace
S/N Ratio	more than 52db (AGC off)
Min. Sensitivity	0.1 Lux at F: 1.2, 0.001 Lux at SENS-UP on
Gama Correction	.045 approx.
Gain Control	Automatic
Video Output	Composite Video 1.0Vp-p/75Ω
Lens	Fixed 3.6mm lens (75°)
Power Consumption	1.0 Watt
Operating Temp.	0°F - 125 °F
Dimensions	1.93" Diameter x 4.50 Length
Weight	1.46 lbs.
